

Roster it

Scheduling made simple

SPEND LESS TIME MANAGING STAFF
AND MORE TIME ON THE THINGS
THAT MATTER.

LEARN HOW ROSTERIT CAN
WORK FOR YOUR BUSINESS

We know scheduling can be a headache

Between filling last minute cancellations and managing complex or irregular shifts, scheduling can be a pain. Managing multiple staff, shifts, and venues can easily swallow up your time.

That's where Rosterit comes in

Say goodbye to spreadsheets! Rosterit takes the stress out of scheduling for both you and your team. Keep all of your staff details, roster schedules, payroll information and time records in one easy to manage Cloud-based solution - with no extra technology to install.

Simple Scheduling

Create rosters, assign jobs or tasks, and offer or swap shifts with the click of a button. Manage your rosters, schedule shifts, and communicate with your team online or via their mobile devices.

Smart Attendance

Give your team the ability to complete timesheets, view their leave balances, and request time off - allowing you oversight of staff work hours. Employees can also clock in remotely through their mobile device, with options to record their GPS location if this varies.

Smart shift matching

Finding the the right person for a shift is simple.

From last-minute cancellations to filling vacant shifts, automatically match the right person for the shift based on roles, skills and availability - making creating and managing shifts a breeze!

Remote rostering

Rostering on the go? Rosterit's web application allows both you and your team to access your rosters anytime, anywhere, and from any mobile device.

- ✓ Mobile-responsive
- ✓ SMS/Text messaging
- ✓ In-app push notifications
- ✓ Email communications
- ✓ Personalised Inbox
- ✓ Group communications
- ✓ Shift reminders & alerts
- ✓ Clock in and out via GPS Time Clock

Instant messaging

Stay connected with your team in real time through email, text messages, or in-app push notifications.

Fill shifts quickly and make sure your team stays in the loop by sending instant shift offers and alerts, reminders, updates and documents to individuals or groups.

Your team can then accept shift offers on the go via their mobile device or browser.

Get a full audit of employee activity and communications through the company message log.

Complete timesheets in more ways than one

Rosterit's Time & Attendance features give staff the ability to complete weekly timesheets, view their leave balances, and request time off - allowing managers oversight of staff work hours. Choose from multiple options for capturing employee work times.

Rostered timesheets

Timesheets can be populated based on rostered shifts.

Manual timesheets

Timesheets can be manually entered by employees each week.

GPS timesheets

GPS-based time clocks allow staff to clock in easily via a centralised platform or their own mobile device based on proximity to their work location.

Easy Timesheets

Staff have the ability to easily view and edit their timesheets - either manually, straight from the roster, or through GPS Time clock functionality. Managers are able to review and approve their team's timesheets, allowing it to be easily uploaded to your preferred payroll provider.

Payroll Integration

Rosterit integrates with the leading payroll providers - including IMS Payroll, Smart Payroll, iPayroll, MYOB and ACE Payroll.

SmartPayroll

Grow your mahi

Rosterit helps you maintain your critical production levels, taking away stress and lost productivity in the process. Reduce time spent sorting out staffing issues, saving you money and freeing you up to focus on growing your business.

Custom Reporting

Comprehensive reporting templates allow you to track staff hours, leave balances and roster reports.

Forecasting Insights

Track and control information about your team's behaviour, shifts and labour costs by connecting to Xero to automatically forecast your sales. That way you can plan ahead and manage staffing levels more effectively to align with the operational needs of your business - improving your bottom line.
